Rizwan Garden, Lahore, Pakistan   03054327590

OBJECTIVE

A Passionate Full Stack Developer skilled in **React.js, Bootstrap, Tailwind** (Frontend) and **Firebase, Node.js, MySQL, MongoDB, Django** (Backend). Dedicated to building high performance, responsive, and intuitive web applications while continuously learning new technologies. Strong problem-solving mindset with a focus on clean code, optimization, and delivering end to end solutions that align with user and business needs.

EDUCATION

The University of Central Punjab, Lahore   **OCT 2020 – Feb 2025**
Bachelor of Computer Science

WORK EXPERIENCE

Associate Web Developer   **MAR 2024 – Present**
CommerceKind, Lahore
- Developed the CommerceKind website using React.js with a clean, **props-driven** component architecture
- Designed a global styling system using :**root CSS variables and nested CSS** for consistent **theming** and maintainability.
- Integrated **EmailJS** for handling contact form submissions with custom form styling and Embedded **Google Maps API** for location display and user accessibility.
- Implemented Lazy Loading and React Suspense to optimize performance and reduce initial load time.
- Optimized component usage for better re usability and improved rendering efficiency.

Junior Front End Developer   **OCT 2024 – DEC 2024**
Apexcode.ai, Lahore
- I leverage my expertise in **React, JavaScript, Django** and **AngularJs** to build robust and scalable solutions.
- I am focused on delivering high-quality products with seamless user experiences and exceptional performance.
- Committed to solving technical challenges efficiently, I continuously strive to improve processes and drive innovation.

Front End Developer   **DEC 2023 – MAR 2024**
TechOverFlow, Lahore
- Developed responsive web interfaces using modern front-end technologies, with a strong focus on performance and usability.
- Gained proficiency in **React.js**, leveraging UI libraries like **Bootstrap** and **Tailwind CSS** to create visually appealing and functional designs.
- Collaborated closely with a team to optimize website performance, achieving a 20% reduction in page load time and enhancing the overall user experience.

ACADEMIC PROJECT

Student Advisory Portal   **March 2024 – Feb 2025**
- Developed a unique platform designed to help students prepare for mock entry tests.
- Enabled users to explore universities across Punjab and retrieve detailed information on academic programs.
- Integrated features for students to view fee structures for various programs, providing a comparative view.
- Implemented search functionality that allows students to identify universities offering specific fields of study aligned with their interests.
